BRISE / TABLE BASSE, Federica Biasi

The collection is made up of round tables with stainless steel bases and portable tops in Millgres available in various sizes and heights and in a palette of dynamic colours.

Stainless steel 304: Characterised by stability and strength, resistance to rust and a greater resistance to oxidation and corrosion, the stainless steel 304 is widely used in outdoor furnishings. The final treatment improves the stability to weather agents and to pollution. These products are not guaranteed when used in proximity of marine and/or chlorine environments.

Millgres: The resistance to weather agents and to humidity makes Millgres a perfect material for the outdoor world. Furthermore, the easy maintenance thanks to its stainproof qualities and ability to be washed with common detergents make it also suitable to be used for foods. Cleaning instructions: use neutral detergents with the help of a soft non-abrasive cloth and rinse abundantly.
